Explanation-3: CGPA shall be calculated out of maximum of 10 points. It is the weighted average of all the grade points of all letter grades earned by the student from his/her entry into the programme. To get the equivalent percentage (100), CGPA has to be multiplied by 10. For instance, CGPA of 6.54 out of 10 is equivalent to 65.40 out of 100 (65.40%). The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcript.
