

SEMESTER 1st
MAJOR/MINOR COURSE
WMG122M: WATER MANAGEMENT (INTRODUCTION TO WATER)
(4+2 CREDITS)

Course objective and outcome: *The objective of this course is to impart the knowledge of hydrology that deals with the occurrence, distribution, movement and properties of water on the earth.*

Paper outcome: *This paper is to offer a better insight on basics of water ranging from importance, characteristics distribution and consumption patterns.*

THEORY (4 CREDITS)

UNIT I: PROPERTIES OF WATER

Origin of water on earth, Unique properties of water (Polarity, Cohesion, Density, Surface Tension, Viscosity, Heat capacity, Boiling and freezing points, Temperature, Taste, Odour, Colour), Importance of water.

UNIT II: WATER RESOURCES DISTRIBUTION

Water as a resource, Concept of valuing water, Types of water resources, Inland water distribution and importance, Ground water distribution and importance, Cryosphere: Distribution and importance, Marine waters: Distribution and importance, Water resources of J&K (River systems and glaciers).

UNIT III: WATER AND HUMAN CIVILIZATION

Importance of water in human civilization (Mesopotamian and Indus), Water catastrophes: Historical perspective and consequences, Water infrastructure and tools (Ancient, Medieval and modern).

UNIT IV: WATER USE AND AVAILABILITY

Distribution of water, Availability and consumption patterns in domestic, industrial, and agricultural sectors, Concept of water stress and scarcity, Water footprint, Domestic water demand and consumption in urban and rural India, Sustainable Development Goal 6 (SDG)

LABORATORY COURSE (CREDITS-2)

1. Evaluation of per capita domestic water consumption pattern
2. Calculation of personal water footprint
3. Visit to any archeological/relevant site for demonstration of water infrastructure
4. Determination of water quality on basis of odor and color
5. Perception of stakeholders regarding drinking water quality available in the institution/College
6. Estimation of water temperature of different ecosystems
7. Questionnaire survey on water demands by various sectors (Domestic, Agriculture, Industry)
8. Visit to a any nearby drinking water supply scheme/source
